

PUGET SOUND AREA SPAY/NEUTER OPTIONS

Many clinics offer low-cost options for spaying and neutering. "Low-cost" varies from approximately \$20 to \$100.

Each clinic has its own policies concerning free-roaming cats. Call in advance to discuss their specific procedures such as whether they will ear-tip, examination and vaccine requirements, and additional fees for cats in heat or pregnant.

We recommend ear-tipping for future identification of altered

free-roaming cats. Ear-tipping helps eliminate the stress of transport, anesthesia and unneeded surgery if the cat is caught in the future.

The following information is provided to assist those planning to help free-roaming cats improve their lives. We try to make sure that this information is valid, and appreciate reports of outdated information or suggestions for new resources.
